

LIAISON 2

12 March 1954

MEMORANDUM FOR: Assistant Director for Research and Reports

SUBJECT: East-West Trade Briefing

1. Ever since the very excellent briefing you gave me, I have become more and more disturbed about the disorderliness of our relations in the field of East-West trade and economic warfare. Could I again request that your people in this field brief some of our people and then that we have a chance to enter into a discussion of sources of material in the general field of East-West trade, the pinpointing of targets for espionage action and channels of reporting?

2. I am sure that after we have a good hoedown on this subject we will be able to conduct our day-to-day business in a fashion that will be more satisfactory to you and to our operating divisions.
